

# CNC Router

A full set of instructions can be found on the Hackspace Wiki ([https://york.hackspace.org.uk/wiki/Equipment/CNC\\_Router](https://york.hackspace.org.uk/wiki/Equipment/CNC_Router)), which explains both the safety and operational points in some level of detail.

Training item	Signature	Signature
Safety		
Generating a gcode		
Using cncjs		
Cutting using the CNC		
Cleaning the CNC		
In Emergency – Pull the plug		

I will accept responsibility for any damage caused to the CNC router when I am using, or supervising someone else.

I agree to pay for repairs to the CNC router if I am responsible for damaging it in any way, either in part or in full, depending upon the circumstances (at the discretion of the trustees).
